

OKLAHOMA RECYCLING ASSOCIATION
CONFERENCE 2023

OFFSETTING THE

RECYCLING OBJECTION

Directions to OKRA Social Networking Event

Thursday, September 28

4:00 p.m. Free Build your own worm compost bin

5:00 p.m. Gather for the Cookout

TBD Corn Hole Tournament

TBD Movies & Popcorn in the Amphitheater

To get to the Pavilion, drive past the conference center and look for the road at the fence line. Follow the dirt road for 1.8 miles. There is limited parking, so carpooling is suggested. (It is a long walk: you should probably drive it.) Keep driving until you see the pavilion and pond.

If you do not want to sit at a picnic table the whole time, bring your own camp chair.

Dress comfortably. Remember it is probably going to be hot!

Vermicompost Demonstration

Starting off our social time, members from the Oklahoma Compost and Sustainability Association will have a step -by- step seminar where you can build your own worm compost bin.

Gather for Cookout

BYOB – *Bring your own beverage* if you want something other than water, iced tea, or lemonade. We will have hotdogs and fixings, chips, veggies, and cookies. If we have a fire, there will be smores!

If you fish, bring your fishing pole! The pond is catch and release.

2nd Annual Corn Hole Tournament

There will be a corn hole tournament with fantastic prizes! If you did not sign up when you registered, you can sign up once you arrive to the cookout.

OKRA Environmental Movie Night

After the corn hole tournament, we are going to gather in the Amphitheater to watch OKRA's Environmental Shopping video starring Michael Patton. We will also be playing an episode of the Okie Recycling Tour when they visit Norman and a Styrofoam collection program there operated by Churches Caring for Creation. Pop corn will be served. Again, bring your own beverage.

- If you look at past the building, you will see a road that goes into the tree line. That is the road to the Pavilion.
